

 The image shows two views of the MD63-421RCD touring distro. The left view is the front panel, featuring a digital multimeter at the top, three pilot lights (green, blue, red) below it, and a grid of 16 blue CEE 400V 5P sockets. At the bottom, there are three red CEE 400V 5P sockets and a red emergency stop button. The right view is the back panel, showing the internal wiring terminals and components. Both views show the distro is mounted on a metal frame with four casters for mobility.
